

Emergency Response Sanitation Unit (ERSU)

A' Simplified Global Solution

The Emergency Response Sanitation Unit (ERSU) is a multipurpose vehicle fully equipped with jetting system, power rodding system, dewatering pump and other equipment (as recommended by MOHUA, GOI). It is to be used for the maintenance and management of sewers and septic tanks. It helps to eliminate the deaths caused by entry of workers into sewers and septic tank without proper PPEs and nonadherence to security protocols.

Compliance to Ministry of Housing and Urban Development Guidelines

Standard Features

- Vehicle Chassis- Force Traveller
- Hydrostatic Drive
- Water Tank
- Jetting System
- Jetting Hose Reel

- Power Take Off
- Dewatering Pump And Hose Pipe
- Generator
- Rope Ladder
- Rechargeable Torch
- Nylon Rope
- Coir Rope
- Fire Extinguisher
- Depth Rod
- Rescue Rod
- Metal Detector
- Tool Box & Tools
- Hand & Operation Tools
- First Aid Kit
- Manhole Cover Lifter
- Collapsible Ladder
- Stretcher
- Electrical System
- Control Panel

Crain

Light Mast

Hosereel

Optional Features

- CCTV Camera
- Winch
- Crane
- Concrete Cutter
- Portable Lighting System
- Telescopic Light Mast
- Pneumatic Plugs
- Vehicle Tracking Monitoring System
- Portable Wood Cutter
- Portable Dewatering Pump

Protective Gears & Safety

- Air Compressor
- Air Blower
- Breathing Apparatus
- Gas Detector
- Site Safety Items
- Personal Safety Gears

Benefits

- All in one Emergency Response for Sanitation Emergencies
- Safety of Personnel
- Quick Response in Congested Areas
